Our three priorities: _____

An illustrative $10,000 plan

This is a math example, not a market-price estimate. Replace every amount with your own priorities and local quotes.

Category	Example allocation
Venue	$2,000
Food & drinks	$3,000
Photography	$1,200
Outfits	$700
Flowers & decor	$400
Music	$500
Stationery	$100
Transport	$200
Other	$400
Reserve	$1,500
TOTAL	$10,000

Next: check that allocations equal your ceiling. When quotes arrive, keep agreed costs separate from payments. The paid Budget Workbook adds these fields and a balance summary.
